Topics include:

- Making a family emotionally “healthy”
- Redefining what it means to be a “successful” child who achieves positive outcomes
- Being in touch with your child’s emotional needs and taking proactive steps
- Staying “present” for your child
- Conducting an honest dialogue with your child
- Understanding what trauma is—and how it can develop at home
- Supporting children with a strong need for autonomy or control
- Recognizing the difference between what children need and what they want
- Creating boundaries that nurture rather than restrict
- Teaching children to protect themselves emotionally and physically

The session includes a Q&A for personalized insight and discussion.
